EXECUTIVE SUMMARY

Results-driven Software QA Automation & IVV Engineer with 4+ years of hands-on experience in manual and automated testing across Web, API, and Mobile applications. Skilled in designing end-to-end automation frameworks using Playwright with TypeScript (Visual Studio Code) and Appium with Android Studio for mobile apps. Experienced in manual mobile application testing, requirement verification, API testing with Postman, and defect management using Jira. Proven track record of ensuring software quality and compliance across defense-grade systems and enterprise applications.

❖ **Open to roles:** Automation Test Engineer, QA Test Engineer, Senior Software Engineer, Software Quality Engineer.

CORE COMPETENCIES & KEY SKILLS

- **Mobile App Testing:** Manual Mobile Testing, Mobile Automation (Appium), Appium Inspector, Android Studio, ADB, Mobile Functional & UI Testing
- **Automation Frameworks:** Playwright (TypeScript), Appium, Selenium WebDriver, TestNG, Cucumber (BDD)
- **API & Database Testing:** REST API Testing, Postman, SQL Queries, HTML
- **Performance & IV&V:** JMeter, Software Verification & Validation (IV&V), GUI & Integration Testing
- **IDEs & Dev Tools:** Visual Studio Code, Android Studio, Jira, Git
- **Methodologies:** Agile/Scrum, SDLC, STLC, Requirement Analysis, Traceability Matrix

TECHNICAL MATRIX

Category	Skills & Tools
Automation Tools & Programming	Playwright(TypeScript), Appium, Selenium(Java), Cucumber, TestNG
Version Control & CI/CD	Git, GitHub, and GitHub Actions
Reporting	Playwright HTML and Extent Reports
Mobile Testing Tools	Appium Inspector, Android Studio, Emulators/Real Devices, ADB
IDEs & Code Editors	Visual Studio Code, Android Studio, Eclipse IDE
API & Performance Tools	Postman, JMeter
Test & Defect Management	Bugzilla, Taiga, Jira, Test Case Design, STLC Execution
Databases & Web	SQL, HTML, CSS, JavaScript

PROFESSIONAL EXPERIENCE

Software IV&V Engineer | GVR Technolabs Pvt. Ltd.
Client: LRDE – DRDO Bangalore.

 May 2024 – Present |  Bangalore, India

- Conduct Independent **Verification and Validation (IV&V)** testing for complex application GUIs and simulators, ensuring adherence to defense standards .
- Built and maintained automated web testing frameworks using **Playwright (TypeScript)** in **Visual Studio Code**, reducing overall regression testing time.
- Built and maintained automated **Native Application(GUI) testing** frameworks using the **Squish tool (Python)**, reducing overall regression testing time.
- Execute manual and automated functional, integration, and regression test suites.

- Perform peer reviews of Test Cases (TC) against Software Requirement Specifications (SRS) to achieve high requirement coverage.
- Identify, log, and track software defects in **Bugzilla** through full defect lifecycle resolution.
- Collaborate closely with development teams to analyze requirements early in the STLC, mitigating potential application bugs.

Software Test Engineer | Innowyze Global Solutions Pvt. Ltd.

Client: The Metromax Group Bangalore.

 Apr 2022 – Apr 2024 |  Bangalore, India

- Built and maintained automated web testing frameworks using **Playwright (TypeScript)** in **Visual Studio Code**, reducing overall regression testing time.
- Automated web testing frameworks using **Selenium (Java)**, **Cucumber** and **TestNG** in **Eclipse IDE**, reducing overall regression testing time.
- Configured mobile app automation using **Appium** in **Android Studio**, inspecting DOM elements using **Appium Inspector** across real Android devices and emulators.
- Executed end-to-end manual mobile testing for functional flows, user interaction, and layout consistency.
- Tested RESTful APIs using **Postman**, validating request payload formats, response codes, and database accuracy via **SQL**.
- Created and executed load/performance tests using **JMeter** to assess system performance under stress.
- Authored detailed Test Plans, Test Cases, and Bug Reports, ensuring high compliance and delivery standards.

EDUCATION

- **Bachelor of Engineering (B.E.) in Electronics and Communication Engineering**
➤ *Acharya Institute of Technology, Bangalore | Completed: 2020*
